Wickness Models Decoder Selector

Instructions: Select your model type and gauge, scan over the row to find appropriate decoders marked with a tick. This will narrow your search to a small number of appropriate decoders. You can then compare the full details of your narrowed choice by checking the full description back in the Wickness Shop

To return to the shop click this link https://wicknessmodels.co.uk/product-category/dcc-decoders/

For decoder choices marked in amber there are occassional applications where the selected decoder may be too large, if want to use these check the actual dimensions in the product listing in the wickness shop. If the decoder is too big you can select another from the same row which is not on amber background and therefore small enough to fit
